Node.js, Express, React.

SUMMARY

Highly motivated and skilled Web Developer with expertise in building web-based applications using technologies like MongoDB, Express, HTML, CSS, JavaScript, and Node.js. Experienced in developing efficient and user-friendly systems to optimize healthcare accessibility and efficiency.

PROJECTS

Doctor Appointment Booking System

June 2023 - July 2023

- Developed a web-based Doctor Appointment Booking System using MongoDB, Express, HTML, CSS, JS, and Node.js technologies.
- Enabled patients to search nearby hospitals, book appointments, submit check-in forms, and provide ratings and reviews.
- Streamlined hospital-patient interactions, optimizing healthcare accessibility and efficiency.
